SPRITE COMPACT

Proving that the best things come in small packages, the Sprite Compact has a slender width of two metres and an MTPLM of just 1094kg. This two-berth model is ideal for those new to touring or seeking a lighter vehicle.

SPRITE

Focusing on value for money and diversity, Sprite has a layout for every type of family. Completely refreshed both inside and out for 2023, it's still packed with all the essentials to maintain its perennial popularity and provide exceptional specification and style, ready for endless fun and relaxing getaways.

SPRITE GRANDE

Enjoying all the features of Sprite, but with even more room to relax and unwind. The extra space allows for a wider opening central window and front chest, an airy dining area and larger sleeping spaces, making it a perfect family caravan.

SEATING

CUSHIONS

CURTAINS/WALLBOARD

SMART is the basis of our intelligent construction system, used across our entire touring caravan range. Strong, Modern, Aerodynamic, Resilient and Tested, you can be assured your Swift caravan is a high quality engineered product.

STRONG

The Strong timberless body frame uses PURe, a tough, hard polyurethane based product that is totally impervious to water and has been proven through use.

MODERN

The SMART construction system uses Modern materials, and has been developed to ensure the exterior profiles maintain the Modern, desirable looks our caravans are renowned for.

AERODYNAMIC

We continue to lead the way in Aerodynamics, using Computational Fluid Dynamics to help shape the bodysell for better fuel consumption and safer towing.

RESILIENT

All fixings are made into the PURe material to a pre-defined depth. PURe is totally impervious to water and has no veins. This means there is no passage for water from the outer skin, making the caravan highly Resilient against moisture.

TESTED

Extensive safety Testing at the Millbrook track, plus cold chamber Testing down to minus 15°C and beyond, puts prototypes through conditions most products will never have to experience in a lifetime; all part of the Swift ethos to deliver the best products to you.

HAIL RESISTANT GRP ROOF

Woven GRP outer surface provides greater durability from the elements.

GRP SIDEWALLS

Balanced panel side walls with GRP outer and inner skins. GRP is more impact resistant than aluminium and can be easily repaired, ensuring long lasting good looks and helping protect your investment for the future.

FLOOR CONSTRUCTION

'Sandwich' floor construction with ply upper, high rigidity Styrofoam core and GRP outer skin to provide greater durability from the elements.
