Fleurette Constructeur

Choosing responsible, French manufacturing.

Continuously looking to the future, our teams have been upholding our company's Made in France craftsmanship from our first "Super" folding caravans to our new Elister model. Our commitment has not changed since we started out: "Creating high quality, premium recreational vehicles designed for the onboard wellbeing of our motorhome users." And we have delivered on our promise for nearly 60 years through our expertise in cutting-edge techniques and our hand-crafting skills, to satisfy the most

demanding customers. Our experience and customer focus have also enabled us to adapt to changing behaviours and nurture the passion for motorhomes that excites us as much as our motorhome users. We are committed to tackling environmental and financial challenges by improving our production methods. Our environmental impact, local production, choice of materials, energy savings and more are all key priorities for us.

OVER 2,000 HOURS OF TRAINING every year for our employees.

100% of our vehicles are fitted with Euro VI-E engines to **REDUCE THEIR ENVIRONMENTAL IMPACT.**

94% of our suppliers of European plywood hold PEFC certification, which guarantees **SUSTAINABLE FOREST MANAGEMENT.**

WE AIM to work with our **LOCAL PARTNERS** within a radius of 20 km of our sites in order to support the regional and national economy and reduce our carbon footprint.

OVER 2,000 POPLARS REPLANTED EVERY YEAR as part of our involvement in a reforestation project in the heart of the Marais Poitevin regional park.

Since 2005, Fleurette Constructeur has been part of the European group Rapido, one of the market leaders in motorhomes, mobile homes, fitted vans and lift-top vans. We share with the Group the values of a family business: proximity, quality and innovation for French customers and their European neighbours.

Evolving into a healthy, sustainable ecosystem.

OUR COMMITMENT, FOR NEARLY 60 YEARS.

REDUCING OUR ENVIRONMENTAL IMPACT

We are committed to minimising the impact of our business on the planet through our waste processing policy (from suppliers to recycling), a study on introducing compactors, and support for a local association that creates hives to produce organic, healthy honey.

Fleurette Constructeur is supporting a poplar reforestation project in the heart of the Marais Poitevin regional park. Through the “1 vehicle purchased = 1 tree planted” campaign, we are raising awareness of current and future issues in the French forestry sector.

MODERN, ECO-FRIENDLY MANUFACTURING

This vision came into play when we extended our buildings. When we built our new plants in Benet in 2018 and 2023, numerous measures were implemented in terms of heating, lighting and water. Every effort was made to preserve natural resources. Other developments are currently being studied.

MORE ENERGY-EFFICIENT VEHICLES

- 100% LED lighting in the living area (meaning 10 times less energy consumed).
- Water-saving shower head for greater autonomy.
- Polyester front and roof in our motorhomes for better insulation.
- Battery management system to monitor the remaining battery cell life.

SUPPORTING THE LOCAL ECONOMY

We prefer local partners in order to support the regional and national economy, and help minimise the carbon footprint created by transporting our goods.

As part of French Fab, it is important to us that we choose suppliers who share our values and environmental concerns, and are involved in our local economy.

RESPONSIBLE EMPLOYMENT & TAILOR-MADE TRAINING

The company is training a new generation of employees to meet tomorrow’s challenges, with innovation, the transfer of know-how, skills development, and more. By recruiting work-study students and setting up partnerships with schools, we can raise awareness of our businesses and train young talent.

In 2023, Fleurette Constructeur created L’École de la Manufacture in partnership with the Compagnons du Devoir. This custom training course for manufacturing is aimed at applicants looking to find work or retrain. The goal is to offer training that leads to a job.

**Just follow
the star**
to some unforgettable
trips!

NEW ***-FLEURETTE-***
ELISTER

Discover the new range of Elister motorhomes redefining high-end comfort for travellers in search of the modern touch. The unique Elister experience combines a generous living space with the driving ease of a low-profile vehicle and all the automotive technology of Mercedes.

Choosing Fleurette Constructeur, the French premium motorhome specialist.

Fleurette Constructeur has always drawn on meticulous work to offer elegant, handsome motorhomes with sophisticated interiors, where the traditional, modern and creative make a harmonious whole. Fleurette Constructeur is one of the few companies with its own polyester workshop, enabling it to manufacture all its furniture and composite parts. "We care deeply about detail and high standards in terms of quality and finish. This is why we want our employees' skills to cover all areas, from design to assembly." Our teams hand down this unique know-how and keenly use those skills to satisfy all of our Fleurette & Florium motorhome enthusiasts.

TWO BRANDS AND TWO STYLES FOR MOTORHOME TRAVEL

-FLEURETTE-

Fleurette, with its longstanding signature charm based on attractive woodwork and a cosy atmosphere.

▷FLORIUM◁

Florium, with its bright atmospheres and decidedly modern touch.

MODELS CREATED BY OUR OWN DESIGN DEPARTMENT

Using high-performance design software, our developers work assiduously every year to offer you new facilities and ingenious layouts that match your lifestyle, with spacious storage facilities.

Learn about our expertise at
fleurette-constructeur.fr/en/

BUILT-IN JOINERY

Today, combining industrial performance, digital order processing and artisanal craftsmanship, the joinery team draw on their skills and a wide variety of processes, working together to continuously enrich the layouts and facilities of our motorhomes.

Two wood finishes, two styles:
Walnut on Fleurette and Ash on Florium.

100% REINFORCED POLYESTER BODYWORK

Today, FLEURETTE CONSTRUCTEUR is the only manufacturer in Europe offering 100% polyester bodywork vehicles, which are produced entirely in our factory in the Vendée region.

HIGH-QUALITY, LONG-LASTING RAW MATERIALS:

- 1/ "High-tech" gelcoat.
- 2/ Fibreglass reinforcements.
- 3/ Resin matrix.

RECOVERY SYSTEM: THE ONLY ASSEMBLY METHOD OF ITS KIND IN EUROPE

- The roof, hood and rear are attached/glued without drilling, by covering the sides.
- Wraparound panoramic wide-angle windscreen: increased visibility for your safety.
- Lowered full-width polyester storage area on reinforced chassis extension. It is padded and heated for greater insulation.
- Flush window improving the thermal insulation and security of your vehicle (cannot be removed from the outside).

PROTECT SYSTEM: OPTIMAL DURABILITY AND INSULATION

The insulating XPS Styrofoam (30 mm of Styrofoam on either side and in the floor) has considerable thermal and acoustic insulating properties, as well as water-resistance and lightness.

The mix of fibre composite and wood, uniting composite's long life with the exceptional solidity of solid wood, strengthens the structure of walls and floor.

- 1/ Styrofoam 2/ Wooden batten 3/ Polyurethane batten 4/ Polyester

MADE BY A FRENCH MASTER UPHOLSTERER

Comfort and design for your daily well-being

TOUCH SCREEN-CONTROLLED HEATING FOR YOUR MOTORHOME

Truma Combi Heating owes its success to the fact that it is compact, effective and reliable. It combines hot water and heating in a single appliance. Every year, Truma redevelops its systems to remain the most innovative brand in Germany.

- Depending on the model, it runs on gas or diesel (electric mode as option*).
- Air and water are heated with 97% efficiency using 1800 W electric resistance heating.
- Collision sensor that cuts the gas in the event of an accident.
- Available in two systems, Combi Gas or Diesel.

*This season, the Truma EH is provided as standard on the Millennium Edition 70LMF/74LMF and Winchester 71LMF/74LJG/75LMF models.

LUXURY BEDDING

Because "good sleep means good health", we want to offer you maximum comfort. All our mattresses are made from 35 kg/m² density soy-based Evulflex foam, with a slatted base.

FEATURES:

- 12 cm highly durable foam panel.
- 150 g/m² hypoallergenic fibre padding.
- Anti-mite jersey ticking on both sides.
- Adapts to your body shape.

Excellent service quality

FOR WORRY-FREE PURCHASES

SERVICES
FREE-OF-CHARGE
FOR THE FIRST
YEAR

FLEURETTE ASSISTANCE:

24/7 in France, abroad or at home, a team of trained on-line motorhome troubleshooting and assistance engineers are on hand to reassure and assist you whatever happens.

Services free-of-charge in the first year for all new Fleurette* and Florium* motorhomes

*After 12 months, you will be asked if you wish to continue the service. For more information, contact +33 (0)3 29 29 85 85

To find out more about our assistance service, visit www.fleurette-constructeur.fr/en

6-YEAR
WATER-
TIGHTNESS
WARRANTY

WARRANTY AND SERVICES:

All materials in contact with the exterior are rot-resistant and create a watertight shield that enables us to offer you a 6-year water-tightness warranty, after an annual humidity check.

To ensure that this guarantee is as effective as possible during these 6 years, a watertightness check will be requested at the start of the 4th and 5th year.

YOUR FINANCIAL PARTNER
