* Important information regarding the Technical Data

1. Technically permissible maximum laden mass (kg)

The technically permissible maximum laden mass is the total mass specified by the manufacturer that the vehicle must not exceed when driving.

2. Mass in running order (kg)

The mass in running order indicates the unladen weight of the vehicle with standard equipment according to the manufacturer's specifications. It includes the mass of the body, the cab, the tyre repair kit and the tools, the fresh water tank filled to 100 % in driving mode (drive load according to the technical data), one aluminium gas cylinder filled to 100 % with a weight of 16 kg, the fuel tank filled to 90 % including fuel, the AdBlue-Tank filled to 100 % and the mass of the driver, which (regardless of the actual weight) is rated at 75 kg. This calculated value is subject to legally permissible production-related deviations of up to +/-5 % (see addition in brackets), which may affect the pay-mass of your motorhome and therefore also the mass of the optional equipment. Please note that the specified value is the mass in running order of the basic version of the vehicle shown. Information on the mass in running order for the vehicle version of your motorhome can be found after delivery of the vehicle in section 13 of the Certificate of Conformity (CoC).

3. Standard belt seats

The mass of the passengers is based on of the number of belt seats specified by the manufacturer rated at 75 kg per belt. The mass of the driver, which has already been included in the mass in running order, must be deducted. For a vehicle with four belt seats, the mass of the passengers is 225 kg (3*75 kg).

4. Maximum mass of optional equipment

The maximum mass of optional equipment is a value calculated by the manufacturer to limit the mass for optional equipment that can be ordered ex works. This is to ensure that the vehicle complies with the legally prescribed minimum pay-mass. If you exceed the maximum mass of optional equipment during configuration, you can only continue or finalise the configuration if you deselect optional equipment or belt seats or order the vehicle with an increase in the technically permissible maximum laden mass. You can find detailed information on the weight specifications on www.frankia.com.

5. Fresh water tank in driving mode (drive load l)

Please note that the filling of the fresh water tank is considerably reduced when driving. If the pay-mass of your motorhome is sufficient, the filling of fresh water tank can be increased.

WE'RE NOT ONES TO REST ON OUR LAURELS!

AN EXTRAORDINARY BRAND WITH EXCEPTIONAL VEHICLES

Powerful: FRANKIA and Yucon have already received three coveted awards. Both the German “Excellent Brands – Transport and Mobility” brand award and the German “Excellent Communications Design – Brand Identity” design award have found their way to FRANKIA in Marktschorgast. Why are these two brands so deserving of these awards? Because FRANKIA is only satisfied with the very best. The team behind the brand is always searching for innovative solutions to new challenges. Whether quality, features that evoke a sense of well-being or weight reduction – the creative minds at FRANKIA are always working on ways to appeal to savvy midlifers who are looking for adventure without compromise when it comes to design, excellent workmanship and comfort.

Camping Innovation of the Year 2024 (European Innovation Award/Interior Design): FRANKIA NOW; available immediately in the three styles Sun, Ocean and Peach.

“We are committed to continuously evolving our vehicles.”

Konstantin Döhler, Managing Director at FRANKIA

FURTHER INFORMATION

NOW

**NOW WILL CHANGE
HOW YOU SEE
EVERYTHING!**

FRANKIA NOW is a true gamechanger. NOW breaks with tradition to reimagine everything: It offers freedom to move, even in the smallest areas. It creates space, even when there is none. NOW is a pioneer – with a visionary design, lighting and visual concept in three casual styles.*

INTERIOR
DESIGN

NOW: a true trendsetter! The FRANKIA NOW concept brings Low-Profile to **the next level. It's a true influencer when it comes to space, light and design.**

NOW

The Low-Profile FRANKIA NOW is sure to make an impression on the road with its streamlined, sporty design.

FRANKIA NOW – SUN STYLE

HIGH LIGHTS

↑ Clear sight lines, indirect lighting and fresh colour schemes – NOW is shaping the future of motorhome travel.

↑ ... Inside, a clean style with fresh accents takes centre stage.

↑ Perfect for leisure equipment: the pull-out exterior storage compartment.

NOW is a style icon! Choose from Sun, Ocean or Peach –
three modern looks that define the exterior design
and add distinct accents to the interior ambience.

N
O
W

The standout feature of the Ocean style: The colour shifts with the light,
transitioning from vibrant turquoise to deep violet.

FRANKIA NOW – SUN STYLE

HIGH LIGHTS

↑ WOW, NOW: Every inch is cleverly utilised!

↑ NOW features a subtle style that embraces clarity and offers creative freedom.

↑ A five-star sleeping experience: lighting, ambience, space, freedom, details

↑ Enjoy a feeling of lightness and well-being in the expansive open areas

↑ FRANKIA NOW 7.0 L 3.5 T*

* Please refer to page 02 for important information regarding the Technical Data.

NOW accommodates everything with ease! It offers you **ample space** with a large rear storage compartment, a pull-out exterior storage compartment and **practical storage solutions** in the interior.

NOW

NOW is robust! Guaranteed, thanks to the ThermoProtect body made of aluminium alloy and hail-resistant GFRP on the roof.

HIGH LIGHTS

↑ The optional power drop-down bed above the seating area is also flooded with natural light.

↑ Another smart detail: the multifunctional box

↑ The perfect place to freshen up: the variable bathroom

↑ The three-sided NOW Tower enables you to access storage space from the kitchen and the bed.
