

2025  
**BLUE EDITION**

UNLIMITED VACATION LUXURY

# The Blue Edition is ready to start rolling

Now we enter Polar's 61st year as caravan manufacturers. Six decades that have given us incredible knowledge, experience, and success. Thanks to skilled builders, talented retailers, and loyal Polar friends. With strong relationships and great ambitions, we proudly launch our 2025 initiatives, and one of the highlights is now in your hands: Edition is back!

Just like previous models, we present interior and equipment in well-thought-out and complete packages, yet you still have the opportunity to make some personal choices. Welcome to explore what the 2025 edition has to offer.

## About Blue Edition

Looking for a simple and comfortable caravan life? Then Blue Edition is the right choice for you! The lineup is available in four sizes and offers four possible floor plans. You can opt for the standard equipment package or upgrade with additional options.

Battery charger		

## MODERN AND COMFORTABLE WITH POLAR

### COMFORT INSIDE

Thanks to a unique construction process and insulation technology, all Polar caravans achieve exceptional tightness. The market's thickest insulation keeps cold, heat, and noise out effectively.

### SLEEP WELL

The mattresses on the beds are among the thickest in the caravan market and are manufactured in Sweden according to our own design.

### COOKING MADE EASY

A practical and well-planned kitchen makes preparing meals simple. Additionally, a kitchen hood and a four-burner stove are standard.

### POLAR PANEL AND USB

Built-in DAB FM radio and Bluetooth for streaming music, audiobooks, or podcasts. Conveniently located USB ports make it easy to charge phones and other devices.

### COMFORT OUTSIDE

Two tent service outlets: 230V and 12V, as well as connections for TV antenna and cable TV.

### DRIVE SAFELY

The industry's most torsionally rigid bodies ensure safe handling year-round and on all types of road surfaces.

### WEIGHT MANAGEMENT

Polar boasts the highest approved load capacities in the market, with each caravan individually weighed to determine its unique service weight in a certificate. During roadside checks, you won't risk losing your license due to the caravan weighing more than the approximate weight indicated on a standard certificate.

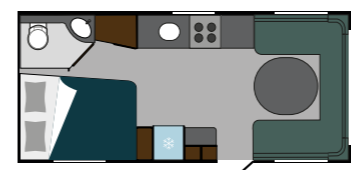

# How do you travel?

The Polar Blue Edition is available in several sizes to suit different lifestyles. The most important consideration is how many sleeping places are needed and how you will use the caravan. A smaller caravan is convenient to hook on and off, which is practical if there are many stops on the trip.

A larger caravan with plenty of storage and living areas is more suitable if you stay in one place for a long time. Also, think about which spaces are most important to you. A large bed and a small kitchen, or vice versa?

## Polar Blue Edition 560 FD

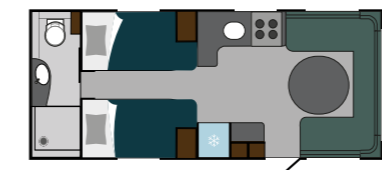

Bed 195x144/122 cm  
Seating area 160x225 cm

The right choice when you want a moderately sized caravan to travel around with that is easy to park. Well-planned spaces with a large and comfortable double bed at the rear, social areas at the front, and a practical kitchenette in the middle. An additional advantage is that the sofa can always be converted into a couple of extra beds if needed.

<b>Beds:</b> .....	<b>2-5</b>
<b>Living space:</b> .....	<b>13,4 m<sup>2</sup></b>
<b>Interior length</b> .....	<b>563 cm</b>

## Polar Blue Edition 590 BS

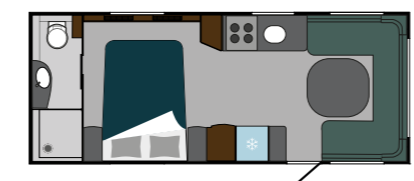

Beds 2 st 195x88,5 cm  
Seating area 160/132x225 cm

A flexible caravan that can be customized to fit your needs. Its size makes it perfect for trips with multiple stops. The caravan features two fixed single beds and a larger kitchen with more counter space. If you need more sleeping places, you can also convert the sofa or opt for additional overhead storage beds.

<b>Beds:</b> .....	<b>2-5</b>
<b>Living space:</b> .....	<b>14,1 m<sup>2</sup></b>
<b>Interior length</b> .....	<b>591 cm</b>

## Polar Blue Edition 620 BQD

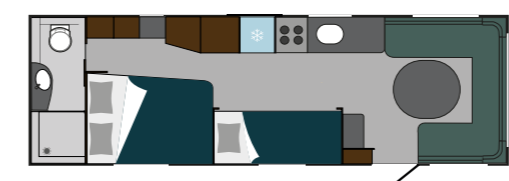

Bed 195,5x140 cm  
Seating area 160/132x225 cm

A slightly larger caravan with ample storage space that is suitable if you stay longer in the same place. It has room for bicycles, skis, and everything else needed for the holiday. The transverse double bed helps to separate the private and social areas effectively.

<b>Beds:</b> .....	<b>2-5</b>
<b>Living space:</b> .....	<b>14,7 m<sup>2</sup></b>
<b>Interior length</b> .....	<b>619 cm</b>

## Polar Blue Edition 730 BFDC

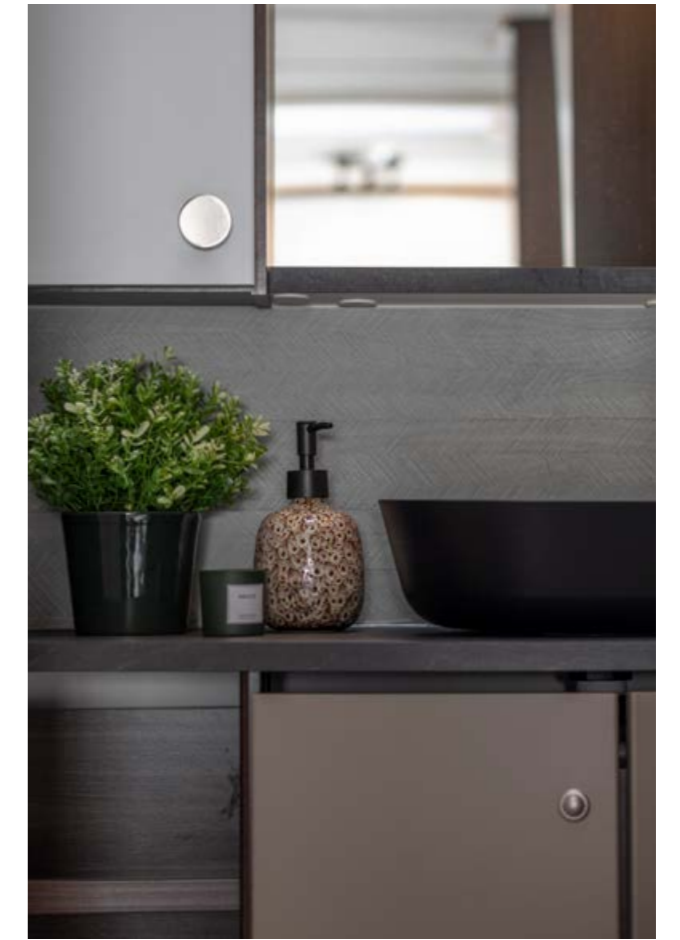

Bed 195x144/122 cm  
Children's beds 193,5x81 cm  
Seating area 188/132x225 cm

Large caravan with generous spaces, excellent storage, and many amenities for a comfortable stay during a full season in the mountains or at a summer campsite. Plenty of room for children with their own sleeping area, and if more guests come, you can quickly and easily convert the sofa into additional beds.

<b>Beds:</b> .....	<b>2-6</b>
<b>Living space:</b> .....	<b>17,4 m<sup>2</sup></b>
<b>Interior length</b> .....	<b>731 cm</b>

# Discover the interior

Fully furnished and ready to go! In the Blue Edition, you get high quality at a great price. What is standard for us is often an option for other manufacturers. For instance, our caravans are upholstered with FibreGuard, a unique and durable fabric that makes it easy to keep the caravan in top condition.

FLOORING - LIGHT ANTIQUE

KITCHEN - FEATHER

TEXTILE - LINNEA MIDDLE GRAY

# World-leading quality from Sweden's smallest municipality

In the northern Swedish town of Dorotea, we have been established for 60 years. Here, at the gateway to Lapland, Polar caravans are predominantly hand-built.

In the factory, walls, floors, roofs, equipment, interiors, and valuable technology are assembled into a road-safe and smooth caravan. This craftsmanship requires both knowledge and a delicate touch. We

have our own carpentry shop in the factory for the interiors, which gives us complete control over the entire manufacturing process. To ensure quality, the same builder installs all the interior components in your caravan. A caravan must be as safe and functional as it is stylish and modern.

When you purchase a brand-new Polar caravan, it is manufactured to order, just for you.

## Weather and wind are tested in the climate chamber

It's no coincidence that Polar caravans are renowned for their durability and long lifespan. Each individual caravan undergoes a leak test in the factory's climate chamber. There, it is subjected to 36,000 liters of water and storm winds for one hour.

Meanwhile, an inspector conducts moisture measurements inside the caravan to ensure all quality standards are met. That's why every new Polar caravan comes with a seven-year leak guarantee, providing you with confidence that your caravan can handle any weather challenges it encounters.

# Northern heart

The northern Swedish heritage runs deep in the DNA of Polar caravans. In the cold and harsh climate, there's no room for half measures. Materials must withstand persistent sub-zero temperatures, and vehicles must endure endless roads with frost heaves. Each caravan undergoes rigorous quality testing before reaching the buyer and comes with a 7-year leak guarantee. That's why the emblem "Made in Norrland" proudly adorns the caravans from Dorotea.
